

DELPHI

Better size.

Better value.

Better hurry!

Better size. Roady™ is the smallest and lightest satellite radio in the industry—an average of 55 percent smaller than similar satellite receivers. So it's a snap to integrate into your control panel. And Roady™ features the smallest satellite radio antenna on the market.

Better value. Roady™ is the most affordable satellite solution! With the most affordable receiver on the market... the lowest monthly subscription in satellite radio (only \$9.99)... and 68 channels of commercial-free music on exclusive XM channels, Roady™ is an unbeatable value! Enjoy more than 120 digital XM® Satellite Radio channels of music, sports, talk, news, traffic and weather reports, comedy, kids programming, and more.

Better hurry! There has never been a better time to join the satellite radio revolution! Act now and receive a **FREE** wireless FM modulator, a \$30.00 value—transmit signals from your Roady™ directly to your radio through an open FM frequency (especially useful in vehicles without a cassette player). This exclusive offer ends soon!

FREE wireless FM modulator with your Roady™ purchase until July 10, 2004. Transmits signals directly to your vehicle's radio!
