FIGHTING TO END CORRUPTION & ENSURE FREE AND FAIR ELECTIONS

Rick --

It's a common twist in horror movies: Things that seemed like tragic accidents turn out to be planned in advance by the bad guys.

And in politics, there's a real-life horror story happening in plain sight. What if the people in charge are doing nothing to rescue our democracy from dark money corruption?

In other words, rather than trying to fix the problem, they seem determined to make it worse, so that dark money becomes a permanent part of the political landscape.

As one example: Congress frequently uses the budget process to slip in "policy riders." One such policy rider that keeps becoming law is one that restricts the Securities and Exchange Commission (SEC) from enacting anti-dark money rules.

These sinister policy riders, hiding in major legislation, become law without much debate. Tragically, the dark money cheerleaders in Congress are using this process to expand the influence of special interests in future elections.

It's exactly this kind of nightmare scenario that Wolf-PAC is fighting against. Thankfully, there's an effective solution: We know a U.S. Constitutional amendment is the only solution that goes above Congress and the Supreme

Court to restore the integrity of our elections, and will protect both state and federal reform.

Please consider becoming a Wolf-PAC member today. Supporters provide a consistent source of support (\$3, \$15, \$27 or more) for our national team and state chapters as we seek free and fair elections. [Can you take a moment and establish a donation amount that's right for you?](#)
